

TDK Life on Record A26 Back Stand Replacement

If the back stand breaks, this guide will help you remove it.

Written By: Elise Howard

TOOLS:

- [T5 Torx Screwdriver](#) (1)
-

Step 1 — Back Stand

- Obtain the T5-bit from the toolkit and assemble the screwdriver.
- Turn the speaker to the back and open the stand.
- Located at the base of the stand are three 3-mm Torx screws.

Step 2

- Remove the three 3-mm Torx screws with the T5-bit screwdriver.
- Gently pull the stand out after removing all the screws.

To reassemble your device, follow these instructions in reverse order.
